Profile

I am a person with a long history of interest and passion for technology and computing. I am a career changer moving into Software engineering and I recently completed the Code Institute Fetac Level 5 Diploma in Full Stack Software Development to update my skills. From this course I have realised more of a passion for backend logic and concepts in Python, MongoDB and SQL. You can see these projects on my GitHub page https://github.com/keefm6776/ .

Relevant Placements & Projects

➢ **Udemy (Online)**   **-** Dates studied (Dec 2020 – April 2021)

  Complete Python Developer in 2021 (zero to mastery)

  o   Course teaching and then building on python development, to build 12 real world projects.

➢ **Code institute (Online), Dublin, Ireland**   **-** Dates studied (Oct 2018 – Dec 2019)

  Fetac Level 5 Certificate in Full Stack Software Development (Award: 2nd Class Honours)

  Tech Stack: HTML5, CSS3, JavaScript, Python, SQL, MongoDB, Flask, Django, Bootstrap.
  IDEs used: Cloud9 & GitPod.

  o   Qualification based on 4 milestone projects for full stack development. Each early project focussed on elements of the fill stack, building from a static site with HTML 5& CSS 3 and later introducing JavaScript and Python amongst other elements building to combine them for the full stack (project 4).

➢ **Liverpool John Moores University**   **-** Dates attended (Sept 1994-June 1998)

  B.Sc. (Hons) Maths, Statistics & Computing (Award: 2:1 Degree with Honours.)

  Tech Stack: Turbo Pascal, Occam, MS-Access.

  o   A degree focussed on teaching mathematical skills along with computer programming concepts with practical applications. Featuring a sandwich placement, working for a year in industry to gain valuable experience to enhance the learning experience.

➢ **Virgin Intercity Westcoast, Crewe, UK**   **-** Dates employed (June 1996 – June 1997)

  Professional Work Placement for Degree Course

  o   Learnt how to use CA-Clipper database language to develop systems below.
  o   Responsible for fleet system used to store & analyse faults caused by Fleet Management.
  o   Tested main performance system, which tracked delay length & causation

General Work Experience

- **Cahill Commercials, Toomevara, Ireland**   - Dates employed (Aug 2020 – Date)

  <u>Parts & Invoicing Assistant</u>
    - Source and collect parts for the workshop.
    - Invoicing Customers for parts and work completed.
    - Maintaining good housekeeping within the premises

- **Guilfoyle Trucks Sales, Roscrea, Ireland.**   - Dates employed (Sept 2005 – May 2020)

  <u>Storeman</u>
    - Learnt and used the DAF Rapido parts system to supply customers with parts.
    - Gave customers service related information from the DAF Service system.
    - Maintained good housekeeping within the premises & stock control of parts.
    - Responsible for Air Products gases, for which we are agents for.

- **Energizer Batteries, Dublin, Ireland.**   - Dates employed (Nov 2004 – May 2005)
  Temporary Van Sales Representative

- **Galtee Meats, Roscrea, Ireland.**   - Dates employed (Oct. 2001 – Sept 2004)
  Intake Quality Control

- **Conduit Enterprises**   - Dates employed (April 2001 – Oct 2001)
  Customer Services Representative

Achievements

- **Travelling** –   I have travelled & worked in Australia & New Zealand. I also travelled
  Through countries of the South Pacific & South East Asia.
- **Ten Tors** –   I completed this challenge, as a team of six, on four occasions at the 35,
  45 and 55 mile distances.
- **Scouting** –   During my time Scouting I achieved the highest award in each Section, and
  the Queen's Scout Award which is the highest award in UK scouting.

Volunteering

- **Scouting Ireland (Roscrea) - Assistant Beaver Scout Leader**   - Sept. 2009 – Jan. 2014
    - As part of the leadership team, I helped to plan & run the weekly meetings for our 6-8 year olds. We ran a couple of camps/sleepovers during each year, as well as attending District and County events.

- **Scouting UK (Liverpool)   - Assistant Beaver Scout Leader**   - Sept. 1994 – June 1998
    - As part of the leadership team, I help to plan and run the weekly meetings for our 6-8 year olds. We also Attended district and county events.

Hobbies & Interests

- I have been interested in technology since an early age, first getting into the concepts of programming in my degree and then furthering this with the Code Institute Diploma.
- I enjoy getting outside and walking and watching my Son when he is playing soccer matches.
